25X1A

25X1A

1. Comment. A large GCPG repair shop for the repair of JS-3s is located in Kirchmoeser.

25X1A

2. Comment. Presumably delivery to the KVP.

25X1A

3. Comment. The increased shipments in November are due to the high percentage of materiel in want of repair after the summer training period.

25X1A

4. Comment. Tanks repaired included 34 in September 1953, about 13 in October 1953 and 29 in November 1953. The monthly quota was 30 tanks. The actual output indicates that the plant is working at full capacity.
